*Reasons for allowance*

The following is an Examiner's statement of reasons for allowance:

Edwards, L. H. (US 4,098,896) teaches the substituted 1,2,4-delta triazolidin-5-ones compound, which possess fungicidal activity. The instant compounds differ from the prior art by having a formula (I) which is further substituted by different variables such as A, R<sup>3</sup>, R<sup>4</sup> and Z (such as 1, 2 oxazole) that are attached indirectly to the core triazole ring, which may be useful as herbicides. The prior art compound neither teaches nor renders obvious the instantly claimed compounds and there is no suggestion or motivation to modify the compounds of other prior art to obtain the instant compounds. Therefore the instant claims are allowable over the prior art of record.
